GROWING ENTERPRISING COMMUNITIES
ENTERPRISING APPROACHES FOR COMMUNITY LEARNING AND DEVELOPMENT

The Loch Lomond and the Trossachs National Park area benefits from a wide range of individuals supporting community learning, development and growth. While funding is hard to come by, some organisations have tried new approaches to enable their work to continue, despite the current financial climate. This day is about sharing those experiences and giving you the space to think about options for your own organisation. Come along and learn with others working and volunteering in the sector – across learning centres, youth work, outdoor activities, libraries and community facilities such as renewables schemes, social enterprises and community and village halls.
