LEADERSHIP FOR SOCIAL ENTERPRISE

Leadership is central to the successful development of social enterprise. Social enterprise in the Park can feel isolated, and often you can miss out on opportunities to learn from similar organisations elsewhere in the Park.

This programme will support you to grow your social enterprise, addressing the leadership and enterprise challenges you face. Bringing together social enterprise leaders from across the Park, we will develop a community of practice to support your ongoing development.

This 6-day programme will give you the support and space to apply and reflect on the impact of your learning towards the development of your team, project and organisation.

There will be two optional follow-up modules in Autumn.

ON THIS PROGRAMME YOU WILL:

- Explore contemporary approaches to leading a social enterprise
- Examine enterprise challenges, including securing investment, developing income streams and maximising social benefit
- Use action learning and peer learning techniques to help you reflect on your own opportunities and challenges
- Carry out business planning for your social enterprise
- Work towards an Institute of Leadership & Management Endorsed Award
