LEARNING AND DEVELOPMENT

Supporting social enterprises & NPOs to achieve sustainable social impact

LEADERSHIP | ENTERPRISE | LEARNING | SOCIAL IMPACT

“Tailor-made, flexible and participative learning that is inclusive rather than prescriptive. The Academy is more person-centred than any other learning organisation I’ve experienced”

The Social Enterprise Academy delivers learning and development programmes for people and organisations working for social purpose.

Through practical, collaborative learning we help them find new ways of meeting the challenges of financial sustainability and of delivering high social impact.

PROGRAMMES WITH IMPACT

LEADERSHIP

The experience on these programmes is often reported as “transformational” for individuals, their teams, organisations and social impact. By developing strengths, self-awareness and insights from others in the sector, social enterprises and NPOs develop effective leadership and an inspiring and innovative culture.

ENTERPRISE

These programmes support social enterprises at the start-up, growth and replication phases. Specifically for NPOs, the Journey to Social Enterprise programme help with the transition from donor-dependency to a sustainable and impactful enterprise.

Learners embark on journey from understanding social enterprise and identifying income-generating opportunities (including BEE), to business planning, change leadership, marketing and finance.

LEARNING

Tools such as coaching, facilitation and action learning enable people at all levels to bring out the best in each other and create a culture of growth and development.

SOCIAL IMPACT

The value NPOs and social enterprises create goes far beyond what can be captured in financial terms, but is often the only way used to communicate accountability. These programmes develop an understanding of the theory of change and modern measurement frameworks that help organisations prove their social value.
